Apache::Session::Lock::Null(3pmUser Contributed Perl DocumentatioApache::Session::Lock::Null(3pm)

### NAME

Apache::Session::Lock::Null - Does not actually provides mutual exclusion

### SYNOPSIS

```
use Apache::Session::Lock::Null;

my $locker = Apache::Session::Lock::Null->new;

$locker->acquire_read_lock($ref);

$locker->acquire_write_lock($ref);

$locker->release_read_lock($ref);

$locker->release_write_lock($ref);

$locker->release_all_locks($ref);
```

### DESCRIPTION

Apache::Session::Lock::Null fulfills the locking interface of Apache::Session, without actually doing any work. This is the module to use if you want maximum performance and don't actually need locking.

### AUTHOR

This module was written by Jeffrey William Baker <jwbaker@acm.org>.
