NAME

Crypt::PBKDF2::Hash::HMACSHA3 - HMAC-SHA3 support for Crypt::PBKDF2 using Digest::SHA

VERSION

version 0.161520

DESCRIPTION

Uses Digest::HMAC and Digest::SHA3 "sha3\_256"/"sha3\_384"/"sha3\_512" to provide the HMAC-ShA3 family of hashes for Crypt::PBKDF2.

This could be done with Crypt::PBKDF2::Hash::DigestHMAC instead, but it seemed nice to have a uniform interface to HMACSHA\*.
