Rocky Enterprise Linux 9.2 Manual Pages on command 'Dpkg::Control::Types.3perl'

\$ man Dpkg::Control::Types.3perl

Dpkg::Control::Types(3perl) libdpkg-perl Dpkg::Control::Types(3perl)

NAME

Dpkg::Control::Types - export CTRL_* constants

DESCRIPTION

You should not use this module directly. Instead you more likely want to use Dpkg::Control which also re-exports the same constants.

This module has been introduced solely to avoid a dependency loop between Dpkg::Control and Dpkg::Control::Fields.

CHANGES

Version 0.xx

This is a private module.

1.21.1 2024-02-23 Dpkg::Control::Types(3perl)
