Rocky Enterprise Linux 9.2 Manual Pages on command 'Dpkg::Exit.3perl'

\$ man Dpkg::Exit.3perl

Dpkg::Exit(3perl) libdpkg-perl Dpkg::Exit(3perl)

NAME

Dpkg::Exit - program exit handlers

DESCRIPTION

The Dpkg::Exit module provides support functions to run handlers on exit.

FUNCTIONS

push_exit_handler(\$func)

Register a code reference into the exit function handlers stack.

pop_exit_handler()

Pop the last registered exit handler from the handlers stack.

run_exit_handlers()

Run the registered exit handlers.

CHANGES

Version 2.00 (dpkg 1.20.0)

Hide variable: @handlers.

Version 1.01 (dpkg 1.17.2)

New functions: `push_exit_handler()`, `pop_exit_handler()`, `run_exit_handlers()`

Deprecated variable: `@handlers`

Version 1.00 (dpkg 1.15.6)

Mark the module as public.

1.21.1
