Package::Stash::XS(3pm) User Contributed Perl Documentation Package::Stash::XS(3pm)

NAME

Package::Stash::XS - faster and more correct implementation of the Package::Stash API

VERSION

version 0.29

SYNOPSIS

use Package::Stash;

DESCRIPTION

This is a backend for Package::Stash, which provides the functionality in a way that's less buggy and much faster. It will be used by default if it's installed, and should be preferred in all environments with a compiler.
