Test::Builder::Tester::Color(3perPerl Programmers Reference GuTest::Builder::Tester::Color(3perl)

NAME

Test::Builder::Tester::Color - turn on colour in Test::Builder::Tester

SYNOPSIS

When running a test script

```
perl -MTest::Builder::Tester::Color test.t
```

DESCRIPTION

Importing this module causes the subroutine color in Test::Builder::Tester to be called with a true value causing colour highlighting to be turned on in debug output.

The sole purpose of this module is to enable colour highlighting from the command line.
