Rocky Enterprise Linux 9.2 Manual Pages on command 'byobu-select-backend.1'

$ man byobu-select-backend.1

byobu-select-backend(1)   byobu   byobu-select-backend(1)

NAME

   byobu-select-backend - select your default Byobu backend window manager

SYNOPSIS

   byobu-select-backend [screen|tmux]

DESCRIPTION

   byobu-select-backend is an application that lists the available Byobu backends and allows

   you to select your default.

   You can select one of either screen(1) or tmux(1) on the command line, or giving no com?

   mand line parameters, the utility will run interactively.

   This utility will only affect which backend is used by default when simply running, by?

   obu(1). Note that at any time, you can force the backend of a particular session by run?

   ning the helpers, byobu-screen(1) or byobu-tmux(1).

FILES

   ~/.byobu/backend

SEE ALSO

   byobu(1), byobu-screen(1), byobu-tmux(1), screen(1), tmux(1)
