CRYPTDISKS\_STOP(8)                      cryptsetup manual                      CRYPTDISKS\_STOP(8)

**NAME**

cryptdisks\_stop - wrapper around cryptsetup that parses /etc/crypttab.

**SYNOPSIS**

cryptdisks\_stop <name>

**DESCRIPTION**

cryptdisks\_stop is a wrapper around cryptsetup that parses /etc/crypttab just like the  
initscript /etc/init.d/cryptdisks does and stops the dm-crypt mapping that corresponds to  
<name>.
