Rocky Enterprise Linux 9.2 Manual Pages on command 'enchant-lsmod-2.1'

$ man enchant-lsmod-2.1

ENCHANT-LSMOD-2(1)   General Commands Manual   ENCHANT-LSMOD-2(1)

NAME

  Enchant - list provider and dictionary information

SYNOPSIS

  enchant-lsmod-2 [[-lang|-word-chars] [language_tag]|-list-dicts|-help|-version]

DESCRIPTION

  enchant-lsmod-2 gives information about Enchant's spell-checker providers and the dictio?

  naries each offers. See enchant-2(1) for details about how the providers and dictionaries

  are located. If no command-line options are given, the available providers are listed.

 OPTIONS

  -lang Show which provider and dictionary will be used for the given language, or all lan?

    guages if none is supplied.

  -word-chars

    Show the extra word characters for the given language, if available. This is of

    little interest to most users.

  -list-dicts

    List the provider and dictionary for all available languages.

  -help Show brief help.

  -version

    Prints the program's version.
