Rocky Enterprise Linux 9.2 Manual Pages on command 'yelp.1'

$ man yelp.1

YELP(1)   General Commands Manual   YELP(1)

NAME

   yelp ? browse system documentation

USAGE

   yelp [file]

   The GNOME Help Browser includes detailed documentation for the majority of applications,

   utilities and other components, such as the panel or the Nautilus file manager.

   Yelp can display some HTML and XML files when passed on the command-line, but it's primar?

   ily called from applications.

   You can also start Yelp by choosing Desktop->Help. This will show the top-level help sys?

   tem page, listing all GNOME documents conveniently organized by topic.

OPTIONS

   This program accepts all the standard GNOME and GTK+ options, which follow the usual GNU

   command line syntax, with long options starting with two dashes (`-'). To get more infor?

   mation about these options launch Yelp with the `--help' argument.

AUTHOR

   Yelp was written by Mikael Hallendal and Alexander Larsson .

   This manual page was written by Jerry Haltom <wasabi@larvalstage.net> for the Debian sys?

   tem (but may be used by others). Permission is granted to copy, distribute and/or modify

   this document under the terms of the GNU Free Documentation License, Version 1.1 or any

   later version published by the Free Software Foundation; with no Invariant Sections, no

   Front-Cover Texts and no Back-Cover Texts.
