C:\>man 00-upstream-settings.5

00-UPSTREAM-SETTINGS(5) User Commands 00-UPSTREAM-SETTINGS(5)

NAME

00-upstream-settings - dconf configuration file

SYNOPSIS

/etc/dconf/db/ibus.d/00-upstream-settings

DESCRIPTION

IBus is an Intelligent Input Bus. It is a new input framework for Linux OS. It provides full featured and user friendly input method user interface. It also may help developers to develop input method easily.

00-upstream-settings is a text configuration file of dconf and can be converted to /etc/dconf/db/ibus by dconf update command with a write privilege in /etc/dconf/db.

/etc/dconf/db/ibus is a database file of dconf and saves the IBus default settings.

The saved keys and values can be readed by dconf command.

```
env DCONF_PROFILE=ibus dconf list /desktop/ibus/
```

BUGS

If you find a bug, please report it at <https://github.com/ibus/ibus/issues>
