Date::Language::Hungarian(3pUser Contributed Perl DocumentatDate::Language::Hungarian(3pm)

NAME

Date::Language::Hungarian - Magyar format for Date::Format

SYNOPSIS

```
my $lang = Date::Language->new('Hungarian');  
print $lang->time2str("%a %b %e %T %Y", time);
```

```
@lt = localtime(time);
```

```
print $lang->time2str($template, time);
```

```
print $lang->strftime($template, @lt);
```

```
print $lang->time2str($template, time, $zone);
```

```
print $lang->strftime($template, @lt, $zone);
```

```
print $lang->ctime(time);
```

```
print $lang->asctime(@lt);
```

```
print $lang->ctime(time, $zone);
```

```
print $lang->asctime(@lt, $zone);
```

See Date::Format.
