**C:\>man Future::IO::Impl::IOAsync.3pm**

Future::IO::Impl::IOAsync(3pUser Contributed Perl DocumentatFuture::IO::Impl::IOAsync(3pm)

### NAME

"Future::IO::Impl::IOAsync" - implement "Future::IO" using "IO::Async"

### DESCRIPTION

This module provides an implementation for Future::IO which uses IO::Async.

There are no additional methods to use in this module; it simply has to be loaded, and will provide the "Future::IO" implementation methods.

```
use Future::IO;

use Future::IO::Impl::IOAsync;

my $f = Future::IO->sleep(5);

...
```
