C:~\man XtDisplayStringConversionWarning.3

XtDisplayStringConversionWarning(3) XT FUNCTIONS XtDisplayStringConversionWarning(3)

NAME

XtDisplayStringConversionWarning - issue a conversion warning message

SYNTAX

```
void XtDisplayStringConversionWarning(Display* display, String from_value,  
to_type);
```

ARGUMENTS

display Specifies the display connection with which the conversion is associated.

from_value

Specifies the string that could not be converted.

to_type Specifies the target representation type requested.

DESCRIPTION

The XtDisplayStringConversionWarning function issues a warning message using XtApp? WarningMsg with name ``conversionError'', type ``string'', class ``XtToolkitError'', and the default message string ``Cannot convert "from_value" to type to_type''.

To issue other types of warning or error messages, the type converter should use `XtAppWarningMsg` or `XtAppErrorMsg`.
