**C:\>man XtGetMultiClickTime.3**

XtSetMultiClickTime(3)            XT FUNCTIONS            XtSetMultiClickTime(3)

### NAME

XtSetMultiClickTime, XtGetMultiClickTime - set and get multi-click times

### SYNTAX

```
void XtSetMultiClickTime(Display* display, int time);
```

```
int XtGetMultiClickTime(Display* display);
```

### ARGUMENTS

display    Specifies the display connection.

time       Specifies the multi-click time in milliseconds.

### DESCRIPTION

XtSetMultiClickTime sets the time interval used by the translation manager to determine when multiple events are interpreted as a repeated event.

XtGetMultiClickTime returns the time in milliseconds that the translation manager uses to determine if multiple events are to be interpreted as a repeated event for purposes of matching a translation entry containing a repeat count.
