

Rocky Enterprise Linux 9.2 Manual Pages on command 'accessdb.8'

C:\>man accessdb.8

ACCESSDB(8) Manual pager utils ACCESSDB(8)

NAME

accessdb - dumps the content of a man-db database in a human readable format

SYNOPSIS

```
/usr/sbin/accessdb [-d?V] [<index-file>]
```

DESCRIPTION

accessdb will output the data contained within a man-db database in a human readable form. By default, it will dump the data from `/var/cache/man/index.<db-type>`, where `<db-type>` is dependent on the database library in use.

Supplying an argument to accessdb will override this default.

OPTIONS

`-d, --debug`

Print debugging information.

`-?, --help`

Print a help message and exit.

`--usage`

Print a short usage message and exit.

`-V, --version`

Display version information.
