C:\>man chardetect3.1

CHARDET(1) User Commands CHARDET(1)

NAME

chardet3 - universal character encoding detector

SYNOPSIS

chardet3 [file ...]

DESCRIPTION

Report heuristically-detected character encoding for each file.

For every specified file (defaulting to stdin if no files are specified), reads and determines the character encoding of the file content. Reports the name and confidence level for each file's detected character encoding.
