

## ***Rocky Enterprise Linux 9.2 Manual Pages on command 'chvt.1'***

**C:\>man chvt.1**

CHVT(1)                    General Commands Manual                    CHVT(1)

### NAME

chvt - change foreground virtual terminal

### SYNOPSIS

chvt N

### DESCRIPTION

The command `chvt N` makes `/dev/ttyN` the foreground terminal. (The corresponding screen is created if it did not exist yet. To get rid of unused VTs, use `deal? locvt(1)`.) The key combination (Ctrl-)LeftAlt-FN (with N in the range 1-12) usually has a similar effect.

26 January 1997
