

## ***Rocky Enterprise Linux 9.2 Manual Pages on command 'cppw.8'***

**C:~>man cppw.8**

CPPW(8)                      System Manager's Manual                      CPPW(8)

### NAME

cppw, cpgr - copy with locking the given file to the password or group file

### SYNOPSIS

cppw [-h] [-s] password\_file

cpgr [-h] [-s] group\_file

### DESCRIPTION

cppw and cpgr will copy, with locking, the given file to /etc/passwd and /etc/group, respectively. With the -s flag, they will copy the shadow versions of those files, /etc/shadow and /etc/gshadow, respectively.

With the -h flag, the commands display a short help message and exit silently.

### SEE ALSO

vipw(8), vigr(8), group(5), passwd(5), shadow(5), gshadow(5)

### AUTHOR

cppw and cpgr were written by Stephen Frost, based on vipw and vigr written by Guy Maor.
