

Rocky Enterprise Linux 9.2 Manual Pages on command 'create-cracklib-dict.8'

C:\>man create-cracklib-dict.8

create-cracklib-dict(8) System Manager's Manual create-cracklib-dict(8)

NAME

create-cracklib-dict - Check passwords using libcrack2

SYNOPSIS

create-cracklib-dict wordlist ...

DESCRIPTION

create-cracklib-dict takes one or more word list files as arguments and converts them into cracklib dictionaries for use by password checking programs. The results are placed in the default compiled-in dictionary location.

If you wish to store the dictionary in a different location, use the cracklib-for?mat and cracklib-packer commands directly.

SEE ALSO

cracklib-format(8), cracklib-packer(8), cracklib-check(8),

AUTHOR

This man page was written by Jan Dittberner <jandd@debian.org> for the Debian GNU/Linux System (but may be used by others).
