

## ***Rocky Enterprise Linux 9.2 Manual Pages on command 'gencat.1'***

**C:\>man gencat.1**

GENCAT(1) Debian GENCAT(1)

### NAME

gencat - Generate message catalog

### SYNOPSIS

gencat [OPTION...] -o OUTPUT-FILE [INPUT-FILE]...

### DESCRIPTION

The gencat program is specified in the X/Open standard and the GNU implementation follows this specification and so processes all correctly formed input files.

Additionally some extension are implemented which help to work in a more reasonable way with the catgets(3) functions.

-H, --header NAME

Create C header file NAME containing symbol definitions

--new Do not use existing catalog, force new output file

-o, --output NAME

Write output to file NAME

### AUTHOR

gencat was written by Ulrich Drepper as part of the GNU C Library.

This man page was written by Jeff Bailey <jbailey@debian.org>.
