

Rocky Enterprise Linux 9.2 Manual Pages on command 'pkaction.1'

C:\>man pkaction.1

PKACTION(1) pkaction PKACTION(1)

NAME

pkaction - Get details about a registered action

SYNOPSIS

pkaction [--version] [--help]

pkaction [--verbose]

pkaction --action-id action [--verbose]

DESCRIPTION

pkaction is used to obtain information about registered PolicyKit actions. If called with --action-id then all actions are displayed. Otherwise the action action. If called without the --verbose option only the name of the action is shown. Otherwise details about the actions are shown.

RETURN VALUE

On success pkaction returns 0. Otherwise a non-zero value is returned and a diagnostic message is printed on standard error.

AUTHOR

Written by David Zeuthen <davidz@redhat.com> with a lot of help from many others.

BUGS

Please send bug reports to either the distribution or the polkit-devel mailing list, see the link <http://lists.freedesktop.org/mailman/listinfo/polkit-devel> on how to subscribe.
