**C:\>man pydoc3.1**

PYDOC3.8(1)                      General Commands Manual                      PYDOC3.8(1)

### NAME

pydoc3.8 - the Python documentation tool

### SYNOPSIS

pydoc3.8 name  
pydoc3.8 -k keyword  
pydoc3.8 -p port  
pydoc3.8 -g  
pydoc3.8 -w module [...]

### DESCRIPTION

pydoc3.8 name Show text documentation on something. name may be the name of a Python keyword, topic, function, module, or package, or a dotted reference to a class or function within a module or module in a package. If name contains a '/', it is used as the path to a Python source file to document. If name is 'keywords', 'topics', or 'modules', a listing of these things is displayed.

pydoc3.8 -k keyword Search for a keyword in the synopsis lines of all available modules.

pydoc3.8 -p port Start an HTTP server on the given port on the local machine.

pydoc3.8 -g Pop up a graphical interface for finding and serving documentation.

pydoc3.8 -w name [...] Write out the HTML documentation for a module to a file in the current directory. If name contains a '/', it is treated as a filename; if it names a directory, documentation is written for all the contents.
