

## ***Rocky Enterprise Linux 9.2 Manual Pages on command 'qecvt\_r.3'***

**C:~\>man qecvt\_r.3**

ECVT\_R(3)                      Linux Programmer's Manual                      ECVT\_R(3)

### NAME

ecvt\_r, fcvt\_r, qecvt\_r, qfcvt\_r - convert a floating-point number to a string

### SYNOPSIS

```
#include <stdlib.h>
```

```
int ecvt_r(double number, int ndigits, int *decpt,  
          int *sign, char *buf, size_t len);
```

```
int fcvt_r(double number, int ndigits, int *decpt,  
          int *sign, char *buf, size_t len);
```

```
int qecvt_r(long double number, int ndigits, int *decpt,  
           int *sign, char *buf, size_t len);
```

```
int qfcvt_r(long double number, int ndigits, int *decpt,  
           int *sign, char *buf, size_t len);
```

Feature Test Macro Requirements for glibc (see `feature_test_macros(7)`):

```
ecvt_r(), fcvt_r(), qecvt_r(), qfcvt_r():
```

```
/* Glibc since 2.19: */ _DEFAULT_SOURCE
```

```
|| /* Glibc versions <= 2.19: */ _SVID_SOURCE || _BSD_SOURCE
```

### DESCRIPTION

The functions `ecvt_r()`, `fcvt_r()`, `qecvt_r()`, and `qfcvt_r()` are identical to `ecvt(3)`, `fcvt(3)`, `qecvt(3)`, and `qfcvt(3)`, respectively, except that they do not return their result in a static buffer, but instead use the supplied `buf` of size `len`.

See `ecvt(3)` and `qecvt(3)`.

## RETURN VALUE

These functions return 0 on success, and -1 otherwise.

## ATTRIBUTES

For an explanation of the terms used in this section, see attributes(7).

????????????????????????????????????????????????????????????

?Interface ? Attribute ? Value ?

????????????????????????????????????????????????????????????

?ecvt\_r(), fcvt\_r(), ? Thread safety ? MT-Safe ?

?qecvt\_r(), qfcvt\_r() ? ? ?

????????????????????????????????????????????????????????????

## CONFORMING TO

These functions are GNU extensions.

## NOTES

These functions are obsolete. Instead, printf(3) is recommended.

## SEE ALSO

ecvt(3), qecvt(3), printf(3)

## COLOPHON

This page is part of release 5.05 of the Linux man-pages project. A description of the project, information about reporting bugs, and the latest version of this page, can be found at <https://www.kernel.org/doc/man-pages/>.
