

## ***Windows PowerShell Get-Help on Cmdlet 'Copy-UserInternationalSettingsToSystem'***

***PS:\>Get-HELP Copy-UserInternationalSettingsToSystem -Full***

### NAME

Copy-UserInternationalSettingsToSystem

### SYNOPSIS

Copies the current user's international settings (Windows Display language, Input language, Regional Format/locale, and Location/GeoID) to one or both of the

following: \* Welcome screen and system accounts

\* New user accounts Important: Note that this PowerShell cmdlet is only available for Windows 11 and later.

This is a system setting. It can only be changed by a user who has Administrator permissions. Changes take effect after the computer is restarted.

### SYNTAX

Copy-UserInternationalSettingsToSystem -WelcomeScreen <Boolean> -NewUser <Boolean> [<CommonParameters>]

### DESCRIPTION

The Copy-UserInternationalSettingsToSystem cmdlet gets the international settings from the current user. You can

decide whether to copy these settings into the

Welcome screen and system accounts , the New user accounts , or both.

This cmdlet takes two parameters: -WelcomeScreen and -NewUser .

When any of the parameters is set to \$True, this cmdlet gets the current values from the current user and copies them to the system settings for the selected options based on the parameters that were set to \$True.

## PARAMETERS

-WelcomeScreen <Boolean>

Copies the settings into the Welcome screen and system accounts.

Required?	true
Position?	named
Default value	None
Accept pipeline input?	False
Accept wildcard characters?	false

-NewUser <Boolean>

Copies the settings into the new user accounts.

Required?	true
Position?	named
Default value	None
Accept pipeline input?	False
Accept wildcard characters?	false

<CommonParameters>

This cmdlet supports the common parameters: Verbose, Debug, ErrorAction, ErrorVariable, WarningAction, WarningVariable, OutBuffer, PipelineVariable, and OutVariable. For more information, see

about\_CommonParameters (<https://go.microsoft.com/fwlink/?LinkID=113216>).

## INPUTS

## OUTPUTS

## NOTES

Example 1: Copy settings into both the Welcome screen and system accounts, and new user accounts

```
PS C:\> Copy-UserInternationalSettingsToSystem -WelcomeScreen $True -NewUser $True
```

This example copies the Windows Display language, Input language, Regional Format/locale, and Location/GeoID into both the Welcome screen and system accounts, and new user accounts.

Example 2: Copy the settings into only the Welcome screen and system accounts

```
PS C:\> Copy-UserInternationalSettingsToSystem -WelcomeScreen $True -NewUser $False
```

This example copies the Windows Display language, Input language, Format/locale, and Regional Location/GeoID to the Welcome screen and system accounts only.
