-InputObject <Microsoft.Azure.Commands.Insights.OutputClasses.PSMonitorPrivateLinkScope>

PSMonitorPrivateLinkScope

Required? true

Position? named

Default value None

Accept pipeline input? True (ByValue)

Accept wildcard characters? false

-LinkedResourceId <System.String>

LA/AI Resource Id to Link

Required? true

Position? named

Default value None

Accept pipeline input? False

Accept wildcard characters? false

-Name <System.String>

Scoped resource Name

Required? true

Position? named

Default value None

Accept pipeline input? False

Accept wildcard characters? false

-ResourceGroupName <System.String>

Resource Group Name

Required? true

Position? named

Default value None

Accept pipeline input? False

Accept wildcard characters? false

-ScopeName <System.String>

Private Link Scope Name

Required? true

Position? named

Default value None

Accept pipeline input? False

Accept wildcard characters? false

-Confirm <System.Management.Automation.SwitchParameter>

Prompts you for confirmation before running the cmdlet.

Required? false

Position? named

Default value False
