Red Hat Enterprise Linux Release 9.2 Manual Pages on 'bundle-clean.1' command

$ man bundle-clean.1

BUNDLE-CLEAN(1)   BUNDLE-CLEAN(1)

NAME

   bundle-clean - Cleans up unused gems in your bundler directory

SYNOPSIS

   bundle clean [--dry-run] [--force]

DESCRIPTION

   This command will remove all unused gems in your bundler directory.

   This is useful when you have made many changes to your gem dependen?

   cies.

OPTIONS

   --dry-run

      Print the changes, but do not clean the unused gems.

   --force

      Force a clean even if --path is not set.

                 December 2021   BUNDLE-CLEAN(1)
