

## ***Red Hat Enterprise Linux Release 9.2 Manual Pages on 'create-cracklib-dict.8' command***

### ***\$ man create-cracklib-dict.8***

create-cracklib-dict(8)   System Manager's Manual   create-cracklib-dict(8)

#### **NAME**

create-cracklib-dict - Check passwords using libcrack2

#### **SYNOPSIS**

create-cracklib-dict wordlist ...

#### **DESCRIPTION**

create-cracklib-dict takes one or more word list files as arguments and converts them into cracklib dictionaries for use by password checking programs. The results are placed in the default compiled-in dictionary location.

If you wish to store the dictionary in a different location, use the cracklib-format and cracklib-packer commands directly.

#### **SEE ALSO**

cracklib-format(8), cracklib-packer(8), cracklib-check(8),

#### **AUTHOR**

This man page was written by Jan Dittberner <jandd@debian.org> for the Debian GNU/Linux System (but may be used by others).
