

Rocky Enterprise Linux 9.2 Manual Pages on command 'figlist.6'

\$ man figlist.6

FIGLIST(6) Games Manual FIGLIST(6)

NAME

figlist - lists figlet fonts and control files

SYNOPSIS

figlist [-d directory]

DESCRIPTION

Lists all fonts and control files in figlet's default font directory.

Replaces "figlet -F", which was removed from figlet version 2.1.

EXAMPLES

To use figlist with its default settings, simply type

```
example% figlist
```

To list all the font and control files in /usr/share/fonts/figlet

```
example% figlist -d /usr/share/fonts/figlet
```

AUTHORS

figlist was written by Glenn Chappell <ggc@uiuc.edu>

This manual page was written by Jonathon Abbott for the Debian Project.
