Rocky Enterprise Linux 9.2 Manual Pages on command 'ftpusers.5'

$ man ftpusers.5

FTPUSERS(5)   Linux Programmer's Manual   FTPUSERS(5)

NAME

   ftpusers - list of users that may not log in via the FTP daemon

DESCRIPTION

   The text file ftpusers contains a list of users that may not log in us?

   ing the File Transfer Protocol (FTP) server daemon. This file is used

   not merely for system administration purposes but also for improving

   security within a TCP/IP networked environment.

   The ftpusers file will typically contain a list of the users that ei?

   ther have no business using ftp or have too many privileges to be al?

   lowed to log in through the FTP server daemon. Such users usually in?

   clude root, daemon, bin, uucp, and news.

   If your FTP server daemon doesn't use ftpusers, then it is suggested

   that you read its documentation to find out how to block access for

   certain users.   Washington University FTP server Daemon (wuftpd) and

   Professional FTP Daemon (proftpd) are known to make use of ftpusers.

 Format

   The format of ftpusers is very simple. There is one account name (or

username) per line. Lines starting with a # are ignored.

FILES

/etc/ftpusers
