\$ man issue.5

ISSUE(5) Linux Programmer's Manual ISSUE(5)

NAME

issue - prelogin message and identification file

DESCRIPTION

`/etc/issue` is a text file which contains a message or system identification to be printed before the login prompt. It may contain various `@char` and `\char` sequences, if supported by the `getty`-type program employed on the system.

FILES

/etc/issue

SEE ALSO

motd(5), agetty(8), mingetty(8)

COLOPHON

This page is part of release 5.10 of the Linux man-pages project. A description of the project, information about reporting bugs, and the latest version of this page, can be found at <https://www.kernel.org/doc/man-pages/>.
