

NAME

MooX::Struct::Util – extensions for MooX::Struct that would have been overkill to include

LAZY DEFAULTS

Sugar for lazily defaulted attributes. The following two are effectively the same.

```
use MooX::Struct WebPage1 => [
    user_agent => [
        lazy      => 1,
        default   => sub { LWP::UserAgent->new },
    ],
];

use MooX::Struct::Util qw(lazy_default);
use MooX::Struct WebPage2 => [
    user_agent => lazy_default { LWP::UserAgent->new },
];
```

BUGS

Please report any bugs to <<http://rt.cpan.org/Dist/Display.html?Queue=MooX-Struct>>.
