

Linux Ubuntu 26.04 Manual Pages on command 'enchant-lsmode-2.1'

\$ man enchant-lsmode-2.1

ENCHANT-LSMOD-2(1)

General Commands Manual

ENCHANT-LSMOD-2(1)

NAME

enchant-lsmode - list provider and dictionary information

SYNOPSIS

enchant-lsmode-2 [[-lang|-word-chars] [language_tag]]-list-dicts|-help|-version]

DESCRIPTION

enchant-lsmode-2 gives information about Enchant's spell-checker providers and the dictionaries each offers. See enchant-2(1) for details about how the providers and dictionaries are located. If no command-line options are given, the available providers are listed.

OPTIONS

- lang Show which provider and dictionary will be used for the given language, or all languages if none is supplied.
- word-chars Show the extra word characters for the given language, if available. This is of little interest to most users.
- list-dicts List the provider and dictionary for all available languages.
- help Show brief help.
- version Prints the program's version.
