

Linux Ubuntu 26.04 Manual Pages on command 'gencat.1'

\$ man gencat.1

GENCAT(1) Debian GENCAT(1)

NAME

gencat - Generate message catalog

SYNOPSIS

gencat [OPTION ...] -o OUTPUT-FILE [INPUT-FILE ...]

DESCRIPTION

The `gencat` program is specified in the X/Open standard and the GNU implementation follows this specification and so processes all correctly formed input files. Additionally some extensions are implemented which help to work in a more reasonable way with the `catgets(3)` functions.

`-H, --header NAME`

Create C header file `NAME` containing symbol definitions

`--new` Do not use existing catalog, force new output file

`-o, --output NAME`

Write output to file `NAME`

AUTHOR

`gencat` was written by Ulrich Drepper as part of the GNU C Library.

This man page was written by Jeff Bailey <jbailey@debian.org>.
