

Linux Ubuntu 26.04 Manual Pages on command 'index.3'

\$ man index.3

index(3) Library Functions Manual index(3)

NAME

index, rindex - locate character in string

LIBRARY

Standard C library (libc, -lc)

SYNOPSIS

```
#include <strings.h>
```

```
[[deprecated]] char *index(const char *s, int c);
```

```
[[deprecated]] char *rindex(const char *s, int c);
```

DESCRIPTION

index() is identical to strchr(3).

rindex() is identical to strrchr(3).

Use strchr(3) and strrchr(3) instead of these functions.

STANDARDS

None.

HISTORY

4.3BSD; marked as LEGACY in POSIX.1-2001. Removed in POSIX.1-2008, recommending strchr(3) and strrchr(3) instead.

SEE ALSO

strchr(3), strrchr(3)
