

Linux Ubuntu 26.04 Manual Pages on command 'ischroot.1'

\$ man ischroot.1

ISCHROOT(1) General Commands Manual ISCHROOT(1)

NAME

ischroot - detect if running in a chroot

SYNOPSIS

ischroot [--default-false] [--default-true] [--help] [--version]

DESCRIPTION

ischroot detects if it is currently running in a chroot. The exit status is:

- 0 if currently running in a chroot
- 1 if currently not running in a chroot
- 2 if the detection is not possible.

OPTIONS

-f, --default-false

Exit with status 1 if the detection is not possible.

-t, --default-true

Exit with status 0 if the detection is not possible.

--help Print a usage message on standard output and exit successfully.

--version

Print version information on standard output and exit successfully.

Debian 30 May 2011 ISCHROOT(1)
