

## ***Linux Ubuntu 26.04 Manual Pages on command 'msexpand.1'***

### ***\$ man msexpand.1***

MSEXPAND(1)                      General Commands Manual                      MSEXPAND(1)

#### NAME

msexpand - decompress data compressed using mscompress(1) or COMPRESS.EXE

#### SYNOPSIS

msexpand [ -h ]

msexpand [ -V ]

msexpand [ name ... ]

#### DESCRIPTION

Msexpand decompress files compressed using mscompress(1) or Microsoft COMPRESS.EXE utility (e.g. Windows 3.x installation files). If no files are specified, the standard input is decompressed to the standard output.

#### AUTHORS
