

Linux Ubuntu 26.04 Manual Pages on command 'npm-shrinkwrap.1'

\$ man npm-shrinkwrap.1

NPM-SHRINKWRAP(1)

General Commands Manual

NPM-SHRINKWRAP(1)

NAME

npm-shrinkwrap

Synopsis

<!-- AUTOGENERATED USAGE DESCRIPTIONS -->

Note: This command is unaware of workspaces.

Description

This command repurposes package-lock.json into a publishable npm-shrinkwrap.json or simply creates a new one. The file created and updated by this command will then take precedence over any other existing or future package-lock.json files. For a detailed explanation of the design and purpose of package locks in npm, see package-lock-json.
