

Linux Ubuntu 26.04 Manual Pages on command 'pt2to3.1'

\$ man pt2to3.1

PT2TO3(1) General Commands Manual PT2TO3(1)

NAME

pt2to3 - PyTables 2.x -> 3.x API transition tool.

SYNOPSIS

pt2to3 [OPTIONS] filename

DESCRIPTION

This tool displays to standard out, so it is common to pipe this to another file: \$ pt2to3
oldfile.py > newfile.py.

OPTIONS

A summary of options is included below.

-r, --reverse

Reverts changes, going from 3.x -> 2.x.

-p, --no-ignore-previous

Ignores previous_api() calls.

-o OUTPUT

Output file to write to..

-i, --inplace

Overwrites the file in-place.

-h Print help on usage.

SEE ALSO

ptrepack(1), ptdump(1).

These utilities are documented fully by PyTables user's manual.
