PYTHON-ARGCOMPLETE...ASY-INSTALL-SCRIPT(1)	User	Commands
PYTHON-ARGCOMPLETE...ASY-INSTALL-SCRIPT(1)		
NAME		
python-argcomplete-check-easy-install-script - python-argcomplete-check-easy-install-script		
- argcomplete utility script		
DESCRIPTION		
This script is part of the Python argcomplete package (https://github.com/kislyuk/argcomplete). It is used to check if an EASY-INSTALL-SCRIPT wrapper redirects to a script that contains the string "PYTHON_ARGCOMPLETE_OK". If you have enabled global completion in argcomplete, the completion hook will run it every time you press <TAB> in your shell.		
Usage:		
python-argcomplete-check-easy-install-script <input executable file>		
AUTHORS		
argcomplete module was written by Andrey Kislyuk		
SEE ALSO		
Full documentation for argcomplete module is stored at https://argcomplete.readthedocs.org/en/latest/
