\$ man sbverify.1

SBVERIFY(1) User Commands SBVERIFY(1)

NAME

sbverify - UEFI secure boot verification tool

SYNOPSIS

sbverify [options] --cert <certfile> <efi-boot-image>

DESCRIPTION

Verify a UEFI secure boot image.

OPTIONS

--cert <certfile>

certificate (x509 certificate)

--list list all signatures (but don't verify)

--detached <file>

read signature from <file>, instead of looking for an embedded signature

sbverify 0.9.4

March 2026
