

Linux Ubuntu 26.04 Manual Pages on command 'sensible-browser.1'

\$ man sensible-browser.1

SENSIBLE-BROWSER(1) General Commands Manual SENSIBLE-BROWSER(1)

NAME

sensible-browser - sensible web browsing

SYNOPSIS

sensible-browser url

DESCRIPTION

sensible-browser makes sensible decisions on which web browser to call. Programs in Debian can use this script as their default web browser or emulate their behavior.

BROWSER environment variable could be set, and will be used if set. Any string acceptable as a command_string operand to the sh -c command shall be valid (this is the same behavior of the EDITOR variable as documented in environ(7)).

SEE ALSO

environ(7)

STANDARD

Documentation of behavior of sensible-utils under a debian system is available under section 11.4 of debian-policy usually installed under /usr/share/doc/debian-policy (you might need to install debian-policy)
