\$ man ubuntu-insights.1

Ubuntu-insights: ubuntu-insights(1)

Ubuntu-insights: ubuntu-insights(1)

NAME

ubuntu-insights - A transparent tool to collect and share anonymous insights about your sys?
tem

SYNOPSIS

ubuntu-insights [flags]

DESCRIPTION

A transparent tool to collect and share anonymous insights about your system.

If consent is given, this tool collects non-personally identifying hardware, software, and platform information, and shares it with the Ubuntu Development team. The information collected can't be used to identify a single machine. All reports are cached on the local machine and can be reviewed before and after uploading.

OPTIONS

--config="" use a specific configuration file

--consent-dir="" the base directory of the consent state files

-h, --help[=false] help for ubuntu-insights

`--insights-dir=""` the base directory of the insights report cache

`--quiet[=false]` suppress all output except errors

`-v, --verbose[=0]` issue INFO (-v), DEBUG (-vv)
