

Linux Ubuntu 26.04 Manual Pages on command 'unicode_stop.1'

\$ man unicode_stop.1

UNICODE_STOP(1) General Commands Manual UNICODE_STOP(1)

NAME

 unicode_stop - revert keyboard and console from unicode mode

SYNOPSIS

 unicode_stop

DESCRIPTION

 The unicode_stop command will more-or-less undo the effect of unicode_start. It puts the keyboard in ASCII (XLATE) mode, and clears the console UTF-8 mode.

AUTHORS

 Andries Brouwer <aeb@cwi.nl>
