NAME
create−cracklib−dict − Check passwords using libcrack2

SYNOPSIS
create−cracklib−dict wordlist ...

DESCRIPTION
create−cracklib−dict takes one or more word list files as arguments and converts them into cracklib dictionaries for use by password checking programs. The results are placed in the default compiled-in dictionary location.

If you wish to store the dictionary in a different location, use the cracklib-format and cracklib-packer commands directly.

SEE ALSO
cracklib−format(8), **cracklib−packer**(8), **cracklib−check**(8),
