

NAME

go – tool for managing Go source code

SYNOPSIS

go install [*build flags*] [*packages*]

DESCRIPTION

Install compiles and installs the packages named by the import paths, along with their dependencies.

For more about the build flags, see **go-build**(1).

For more about specifying packages, see **go-packages**(7).

SEE ALSO

go-build(1), **go-get**(1), **go-clean**(1).

AUTHOR

This manual page was written by Michael Stapelberg <stapelberg@debian.org>, for the Debian project (and may be used by others).
