IT & DEVOPS MASTER CLASS

PART 7 OF 13

PowerShell Hands-On: Get-Service, Get-Command, Aliases and Managing Processes

Read PowerShell help as a PDF, then practice it: Get-Service sorted by status, Get-Help with -Examples and -Online, Get-Command with -Noun and -Verb, Measure-Object, aliases, and finding and stopping Notepad++ with Get-Process, Where-Object and Stop-Process.

0:00	5,700 PowerShell PDF manuals	3:36	Get-Alias and Get-Process
0:56	Get-Service | Sort-Object Status	3:43	Start-Process notepad++
1:23	Get-Help -Examples, -Detailed, -Online	4:35	Where-Object with -eq and -like
1:53	Get-Command, -Syntax and Measure-Object	7:08	Stop-Process and the kill alias
