

EPISODE 1 • NOV 9–15, 2026

TECH & AI NEWS

THIS WEEK

NVIDIA's CEO change, Gemini 4 Hydrogen, Claude Meetings, the Anthropic IPO, OpenAI & Cursor

For students, developers, data scientists & researchers

DISCLAIMER

This news summary is for information and education only.

It is based on public sources listed in the description, and details may change after recording.

It is not financial, legal, or investment advice.

Please check the sources and make your own judgment.

This Week's Headlines

- NVIDIA: Jensen Huang resigns as CEO; CFO Colette Kress named interim CEO
- Google: Gemini 4 Hydrogen rolls out; Gemini 4 Carbon widely available
- Anthropic: Claude Meetings beta; new Usage Policy; IPO filing
- OpenAI: Cursor's direct access to OpenAI models scheduled to end Nov 12
- Microsoft 365 outage takes down Outlook, Teams and Copilot
- Free tool to try: Ollama — run open AI models on your own computer

Top Story: Leadership Change at NVIDIA

- NVIDIA's board announced Jensen Huang resigned as President, CEO and board member (Nov 12)
- CFO Colette Kress is Interim CEO and remains CFO; a search for a permanent CEO has begun
- Harvey C. Jones appointed the board's first Chair
- NVIDIA did not disclose a reason; it says operations and the product roadmap continue
- Why it matters: NVIDIA GPUs power most AI training and data centers today

Google: The Gemini 4 Family Grows

- Gemini 4 Hydrogen (Nov 12): fast model for everyday coding and agent workflows
- 1-million-token context window and four selectable thinking levels
- Rolling out in the Gemini app, Google Search, AI Studio and the Gemini API
- Gemini 4 Carbon (Nov 10): broader availability on paid Gemini API tiers
- Gemini Decisions API (Nov 11): yes/no, choice and scoring answers with confidence
- Developers: compare Hydrogen and Carbon on your own tasks before switching

Anthropic: Claude Meetings, New Policy, IPO

- Claude Meetings beta (Nov 12): Claude joins Google Meet calls for Team and Enterprise plans
- Takes notes, answers questions and builds docs, whiteboards and slides during the call
- 2026 Usage Policy took effect Nov 12 (published Oct 8)
- IPO: filings seek up to $64.4B plus a $26B private placement (Bloomberg)
- Reported: orders about 6× the shares available (people familiar, Bloomberg)
- Not investment advice — check the official filings yourself

OpenAI and Cursor: A Lesson in AI Dependencies

- Aug 28: OpenAI said it would wind down its contract supplying models to Cursor
- Reason given: Cursor's acquisition by SpaceX; proposed shutoff date Nov 12, 2026
- OpenAI said future models would not be added to Cursor
- Cursor's CEO said OpenAI models were about 5% of Cursor traffic
- Developers: avoid depending on a single AI provider; keep a fallback

Microsoft 365 Outage Hits Copilot and More

- Began Nov 12: Outlook, Exchange Online, Teams, SharePoint and Copilot affected
- Reports came from many countries; recovery continued into Nov 13–14
- Microsoft linked it to a network change, not to Copilot itself
- AI tools that connect to Microsoft 365 (e.g. in Claude and ChatGPT) were affected too
- Lesson: AI agents are only as reliable as the services they connect to

Why It Matters for You

You are a...	Takeaway this week
Student	Learn concepts that last (GPUs, APIs, cloud), not just one product
Developer	Test new models on your own tasks; keep a fallback provider
Data scientist	Try decision/scoring APIs for labeling; measure accuracy yourself
Researcher	Long context helps with papers and data; always verify AI answers
Everyone	Check sources, and keep backups of your important work

Free Tool to Try: Ollama (Local AI Models)

```
# Install from https://ollama.com (macOS, Windows, Linux), then:
% ollama pull llama3.2          # download a small open model
% ollama run llama3.2           # chat with it in your terminal
% ollama list                   # models on your computer

# It also serves a local API for your own programs:
% curl http://localhost:11434/api/generate \
    -d '{"model": "llama3.2", "prompt": "Explain a GPU in one sentence"}'
```

Model names change often: browse the model library on ollama.com.
